

# On the winding road to retirement...

*let your 401(k) plan help get you there.*

## *Organizing tips for the trip...*

- ▶ **Start** by signing up for your company's 401(k) plan today and try to contribute at least enough to get the full company match! If you already contribute, consider increasing your contribution amount. Then take control of your savings by learning more about your 401(k) plan.
- ▶ **Navigate** through your plan's choice of investment options. Consider diversifying your savings among different investment types that your plan offers, e.g., stocks, bonds, capital preservation. Review the plan's fund lineup for the choices available to meet your goals or talk to a financial advisor.
- ▶ **Curves in the road** are to be expected but don't let them throw you off course! Your 401(k) retirement account is for the long-term. Diversifying among the different investment types can help to both protect and grow your savings over time.

**401(k) Day**  
*Taking you there*
