

Enjoy!

Your retirement can be delicious... start planning now.

If you imagine a sweet retirement, you can count on the fact that you'll need enough income to make it happen. A general rule of thumb is 70% - 90% of your pre-retirement income.

Make a plan of what your slice of life after retirement will be:

- Calculate how much income you will need in retirement.
- Contribute as much as you can to your 401(k) account. If eligible, take advantage of the Catch-Up Contribution which allows you to save even more.
- Consider your investment horizon....it does not end at retirement...diversify your assets to help them last through your retirement.
- Consider reviewing and adjusting your strategy to make sure your account is working hard for you.
