Fight for truth, justice, and a “super” retirement!

“POW!”

Retirement is going to be expensive—you’ll likely need 70% - 90% of your pre-retirement income in retirement.

“BAM!”

Social Security is probably not enough, with 96% of today’s retirees receiving an average monthly Social Security benefit of only about \$1,160.

Who’ll save the day? Look! Up in the sky! It’s your employer’s 401(k) Plan... here to:

- **Help make saving easy!** Automatic payroll deductions are a good start.
- **Help make saving smart!** Pre-tax contributions and tax-deferred growth and after-tax contributions could mean more in your pocket tomorrow.
- **Help make saving right for everyone!** Catch-up Contributions (if applicable) and other incentives help let even mature superheroes do what they can.

So contribute all you can... create an investment strategy... and review and refine your account at least once a year.

***Have no fear, citizens...
