

Give your dough time to rise.

(You'll need it.)

Most bread needs time to grow and so do most investments. The sooner you start investing, the more time your money will have to grow. And one of the best places to do it is in your 401(k) plan because it:

- is convenient
- gives you an immediate tax break by saving with pretax dollars
- may match your contributions with money from your employer

Start saving now.
